## Audit objectives

Kiwa will assess the following during the audit:

- the quality system and the quality manual correspond to the requirements of the Evaluation Guideline(s) and the established scope of the certificate;
- the quality system has been implemented properly in order to ensure compliance with the requirements of the applicable Evaluation Guideline;
- the defined processes and documentation of the quality system have been implemented;
- the quality system is functioning effectively;
- the results of the activities is in accordance with the requirements of the quality system.

## Instructions for the auditor:

1. This form is **for internal use** and is required for each year and for each company.
2. In the space "Number of visits" the number of visits applicable for that year is to be filled in
3. After each audit the column for that audit has to be completed for that audit.
4. After the last audit in that year the completed form is to be sent to the relevant product manager.
