

Certification

As an entrepreneur, you guarantee that your products, services, personnel and processes comply with laws and regulations concerning safety, efficiency, control and sustainability. But how can you convince (potential) customers or clients of these good intentions - today, tomorrow and into the future? With a certificate!

What is certification?

Certification independently confirms characteristics of an object (a product), process, person or organisation. Kiwa's certificates and reports offer reliable, impartial, objective and internationally recognised evidence.

What we certify

-  A product or an aspect of it
-  A design
-  Personal skills
-  A process
-  Management systems

!  marking \neq Certification

Advantages

-  Certification improves efficiency
-  Certification means certainty
-  Certification improves customer satisfaction
-  Certification ensures confidence
-  Certification fosters engagement

Independence

We act as an independent third party when certifying, but we are being assessed by the Accreditation Council and European accreditation institutions on a regular basis as well.

-  Certification is great for marketing
-  Certification creates trust

The process
