

Get your **SERMI** certificate in 5 easy steps

From 1 April 2024 working on components and software related to vehicle security may only be carried out under certificate. Certification makes working on vehicle security simpler, more economical, faster and carefree. As one of the first companies in Europe Kiwa is an accredited inspection body for SERMI. Find out the 5 steps to get your SERMI certificate quickly and easily through our webshop.

1

Order

Go to www.kiwa.nl/sermi-certification to purchase certification for your company and certification for your employees. After payment with iDEAL you will receive an e-mail within 5 minutes to start your application.

2

Start your application

Complete your application by uploading all required company information in our portal. You can apply for multiple business locations in once. The employees you specify for certification will receive a personal e-mail to complete their application.

3

Employee application

After receiving the invitation e-mail, your employees provide the required information themselves within the portal. As soon as the employee is ready, their input will be forwarded to Kiwa.

4

Review by Kiwa

Fully completed applications from the company and the employees will be assessed by Kiwa in accordance with the SERMI standard.

5

SERMI certified!

Congratulations! Your company and employees are now certified for a period of 5 years. The only thing left to do is for the employees to download the Digidentity app. Instructions and information for account and SERMI login activation are provided in their e-mail.

Both the company and the employee have obligations that must be met to maintain certified. **Find an overview of the responsibilities on Kiwa.com.**
