# Regulatory Update

October 2012

## Bolivia:

The Bolivian Authority, ATT (Autoridad de Regulación y Fiscalización de Telecomunicaciones y Transportes), have been working on their new Regulation (Ley 164) which, once in force, denotes that all products must be Approved before entering the country.

Despite many delays in the implementation, we have been advised by the Authority that the regulation has now been approved, and a Type Approval procedure is in development and will follow a few months later (max 6 months).

Country Approval will remain voluntary until the Type Approval procedure is finalized.

Full requirements for mandatory Approval will be confirmed once the Type Approval procedure is in place and an additional update will be provided accordingly.
