# Regulatory Update

## Bluetooth devices with more than 2mW EIRP Output Power - Pakistan

Type Approval for BT devices has been part of PTA regulations under 'Pakistan Telecommunication (Re-Organization) Act, 1996 (with 2006 amendments)' Telecoms Act, however, this has not been enforced, resulting in PTA considering Bluetooth equipment exempt from Type Approval.

PTA has now decided to enforce this regulation and any BT device with an output power of more than 2mW EIRP will be subject to Type Approval.

All BT devices with less than 2mW EIRP output power remain exempt.

The decision for retrospective exemptions from the previous years will be reached in the next few weeks.
