# Regulatory Update - Thailand

## **Thailand NBTC –New standards for GSM/WCDMA/E-UTRA issued to replace old standards.**

On 28<sup>th</sup> April, the National Broadcasting and Telecommunications Commission (NBTC) of Thailand issued the following updated standards:

NTC TS 1004-2560 GSM Cellular Mobile  
NTC TS 1015-2560 WCDMA Cellular Mobile  
NTC TS 1027-2560 E-UTRA Cellular Mobile

To replace the following standards respectively:

NTC TS 1004 -2553 GSM Cellular Mobile  
NTC TS 1015-2552 WCDMA Cellular Mobile  
NTC TS 1027-2557 E-UTRA Cellular Mobile

These new standards officially came into effect from 29<sup>th</sup> April.

The changes implemented as a result of the new standards are as follows:

- 1) Class B Type Approval applications for GSM/3G/LTE products will require TIS1561-2556 or IEC60950 test report for the host product, including its charger, and power supply adapter.

---

2) Class B Type Approval applications for GSM/3G/LTE products will require TIS 2217-2548 or IEC62133 test report for its battery.

Notes:

- The above changes have come into immediate effect
- The above changes apply only to handheld and portable products.  
However, NBTC may also apply this requirement to other equipment on a case by case basis.
- There are no other changes regarding frequency or power.
- All Type Approval certificates issued under the old standards will continue to be valid.
