## Regulatory Alert - Moldova

### **Testing Laboratory of National Radio Frequency Center of Moldova closes for indefinite period of time.**

On 11th March PCS was informed that starting on 22nd March laboratory within National Radio Frequency Center (CNFR) of Moldova will be closed and testing of samples will not be available due to technical issues.

National Radio Frequency Center of Moldova advises to refrain from submitting samples for Type Approval in Moldova until further notice. PCS was advised it may take over one month for the lab to resume its activities.

PCS was informed that National Radio Frequency Center of Moldova is doing everything possible to rectify technical issues facing the lab. Discussions of possibility of issuing approval certificates without testing as an exception during this period are going on at CNFR. It was advised that outcomes of these discussions will be available by 18<sup>th</sup> March.

We are sorry for the inconveniences caused by the closure of the testing lab in Moldova.

PCS will be following any further developments on this article very closely and will keep you updated once more information become available.
