Taps for delivery of hot or boiling water

Technical specification

The products mentioned below belong to this product certificate;

Dispenser types	1	2	3
Design	Fusion Round	Nordic Round	Flex
Function	Mixing tap with incorporated boiling/hot water dispenser	Boiling/hot water dispenser	Mixing tap with incorporated boiling/hot water dispenser. Tap has pull-out hose
Article number	QW329279	QW297415	QW322409
Finish	Chrome	Chrome	Chrome/SS
Heater types	1	2	3
Function	Pressure heater for storage of boiling water and warm water	Pressure heater with incorporated expansion compartment	Pressure heater for storage of boiling water
Model	COMBI+E	PRO3-VAQB	PRO3VAQE
Article number	CPW466689	VBW359299	VCW406566
Capacity	7 L	3 L	3 L

REMARK

The specified products were not yet assessed for compliance with all hygienic aspects as inserted in the “Drinkwaterbesluit” (Drinking Water Decree) and outlined in the “Regeling materialen en chemicaliën drink- en warm tapwatervoorziening” (Regulation for Materials and chemical in drinking and warm tap water supply), implemented 1 July 2017, as specified in clause 4.1.1 of Kiwa guideline BRL-K14040.

APPLICATION AND USE

This certificate specifies water dispensing units for domestic purposes for use as single or multiple delivery points and to deliver cold, blended, warm (up to 65°C) and hot (over 90°C) or boiling water.

The delivery point delivering hot or boiling water is not suited for washing the body or hands. The units are designed to be continuously connected to drinking water installations with a water pressure between 0,1 MPa and 1,0 MPa. However, the recommended limits for correct operation are a dynamic pressure between 0,1 MPa and 0,5 MPa.

This certificate covers dispensing units that heat a stored volume of water, heat the water instantaneously or are a combination of both and any heat source. The design maybe of remote operation or designed for use by persons with reduced mobility or sensory capability.

MARKING

The Kiwa®-mark products are marked with the wordmark “KIWA”.

Place of the mark:

- Kiwa on the body.

Compulsory specifications:

- name or mark of the manufacturer: on the body;
- indication of the acoustic group, if classified: on the body;
- indication of the flow rate class, if classified: on the body;
- Indication for temperature selection.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Quooker International B.V.

and, if necessary,

- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
