## Flocon 260

---

### PRODUCT SPECIFICATION

'Flocon 260' is an aqueous solution of polycarboxylic acids.

### FITNESS FOR CONTACT WITH DRINKING WATER

This product is approved on the basis of the requirements for hygienic aspects set in the "Regeling materialen en chemicaliën drink- en warm tapwatervoorziening" ("Materials and chemicals in the supply of drinking water and warm tap water Regulation", dated 01-07-2017; published in the Government Gazette).

These hygienic aspects are based on two main criteria. The product shall permanently comply with:

- The product recipe approved during the assessment procedure. This recipe is not to be changed without prior approval by Kiwa according to the Kiwa approval procedure for the hygienic aspects;
- Specific product requirements for the hygienic aspects.

The recipe and specific product requirements are laid down in the for confidentiality reasons undisclosed 'appendix hygienic aspects' to this certificate.

### PRODUCT REQUIREMENTS HYGIENIC ASPECTS

The contents of acrylic acid may not exceed 30 g/kg of the product.

### APPLICATION AND USE

Flocon 260' is an antiscalant for reverse osmosis membrane systems. The dosage of 'Flocon 260' is 10 mg/l water at maximum.

### MARKING

Design of the required Kiwa certification mark:

- "kiwa ", in ink or seal.

Location of the mark:

- On the packaging or on the delivery receipt.

Mandatory marks:

- "kiwa ";
- "Flocon 260";
- "K12177".

### RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Italmatch Chemicals GB Ltd.
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's (processing) guidelines for the proper storage and transport methods.

Check whether this certificate is still valid by consulting [www.kiwa.nl](http://www.kiwa.nl).
