**Certification process
consists of initial and
regular assessment of:**

- quality system
- product

Permabond A131

PRODUCTSPECIFICATION

The products mentioned below belong to this product certificate

"Permabond A 131" is a sealing and locking agent for threaded connections of metals

Fitness for contact with drinking water

This product is approved on the basis of the requirements for hygienic aspects set in the "Regeling materialen en chemicaliën drink- en warm tapwatervoorziening" ("Materials and chemicals in the supply of drinking water and warm tap water Regulation" dated 01-07-2017; published in the Government Gazette).

These hygienic aspects are based on two main criteria. The product shall permanently comply with:

- The product recipe approved during the assessment procedure. This recipe is not to be changed without prior approval by Kiwa according to the Kiwa approval procedure for the hygienic aspects;
- Specific product requirements for the hygienic aspects.

The recipe and specific product requirements are laid down in the for confidentiality reasons undisclosed 'appendix hygienic aspects' to this certificate.

Markings

The products are marked with the specified Kiwa-ATA-mark.

Method of marking:

- Kiwa-ATA, in ink or seal.

Place of the mark:

- on the packaging.

Compulsory specifications:

- "Kiwa-ATA";
- "Permabond A131";
- "K22024".

APPLICATION AND USE

"Permabond A131" is used in drinking water systems.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Permabond Engineering Adhesives Ltd
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's (processing) guidelines for the proper storage and transport methods.

Check whether this certificate is still valid by consulting www.kiwa.nl.
