Close coupled suites

Product specification

The products mentioned below belong to this technical approval-with-product certificate

Close coupled suites using a flush volume of 6 ± 0.2 litres

1. **Model C201C** consisting of:

wash-down WC-pan with concealed vertical outlet (USV 225),
flushing cistern S201B with bottom inlet connection; with inner
mechanism:

- float operated valve Geberit type Impuls 360 (FORS);
- flush mechanism Geberit type TWICO II. with dual flush operation.

2. **Model C284C** consisting of:

wash-down WC-pan with concealed vertical outlet (USV 225),
flushing cistern S284B with bottom inlet connection; with inner
mechanism:

- float operated Huida no. E2004-001;
 - flush mechanism Huida no. P2232 with dual flush operation.
- Also supplied under the brand code no. 619121.

3. **Model C270C** consisting of:

wash-down WC-pan with concealed vertical outlet (USV 225),
flushing cistern HDS270 with bottom inlet connection; with inner
mechanism:

- float operated Huida no. E2004;
- flush mechanism Huida no. P2232 with dual flush operation.

4. **Model C284P** consisting of:

wash-down WC-pan with exposed vertical outlet (UP), flushing
cistern S284B with bottom inlet connection; with inner mechanism:

- float operated Huida no. E2004-001;
 - flush mechanism Huida no. P2232 with dual flush operation.
- Also supplied under the brand code no. 619122.

5. **Model HDC15A** consisting of:

wash-down WC-pan with concealed vertical outlet (USV 225),
flushing cistern HDS15 with bottom inlet connection; with inner
mechanism:

- float operated Huida no. E2004;
- flush mechanism Huida no. P2212 with dual flush operation.

6. **Model HDC201NC** consisting of:

wash-down WC-pan with concealed vertical outlet (USV 225),
flushing cistern HDS201D with bottom inlet connection; with inner
mechanism:

- float operated Huida no. E2004;
- flush mechanism Huida no. P2212 with dual flush operation.

Note

The above mentioned product(s) are also approved according to EN997:2012 + A1: 2015 for a nominal flush of 6 litres.

Close coupled suites

Application and use

The WC-pans delivered under this certificate in combination with flushing cisterns and/or pressure flush valves are intended for use as sanitary appliances, connected to drinking water installations with a water temperature of 30 °C maximum.

Marking

The Kiwa®-mark products are marked with the wordmark "KIWA".
The WC pan, cistern and float operated valve of the close coupled suites are marked with the wordmark "KIWA". On the WC-pan this wordmark shall be followed by the number 6, 7.5 or 9, indicating the flushing volume.

Example:

Close coupled suite marked as follows:

WC-pan: "KIWA-6"

Cistern: "KIWA"

Float valve: "KIWA"

By this marking it is given that the close coupled suite is Kiwa certified and intended for use with a full flush of 6 ± 0.2 litres. This flushing volume is indicated by the highest waterline in the cistern.

Place of the mark:

- on the WC-pans between the attachment holes of the lavatory seat or on the sides;
- on the float valves on the body;
- on the cisterns on the left side, right side or front or on the inside above water level.

Compulsory specifications:

name or mark of the manufacturer

- on the WC-pans between the attachment holes of the lavatory seat or on the sides;
- on the float valves on the body;
- on the cisterns on the left side, right side or front or on the inside above water level.
- reference to the European standard EN997

Method of marking:

- Non-erasable;
- visible after assembly.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- HUIDA SANITARY WARE CO. LTD.

and, if necessary,

- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
