WC-pans

STATEMENT BY KIWA

With this product certificate, issued in accordance with the Kiwa Regulations for Certification, Kiwa declares that legitimate confidence exists that the products supplied by

Geberit International AG

as specified in this product certificate and marked with the Kiwa®-mark in the manner as indicated in this product certificate may, on delivery, be relied upon to comply with Kiwa evaluation guideline BRL-K619 "WC-pans" dated 15-09-2019,

which covers the requirements of

EN 997:2012 + A1: 2015 "WC pans with integral trap".

WC-pans

Application and use

The WC-pans delivered under this certificate in combination with flushing cisterns and/or pressure flush valves are intended for use as sanitary appliances, connected to drinking water installations with a water temperature of 30 °C maximum.

Marking

The Kiwa®-mark products are marked with the word mark "KIWA"

On the WC-pan this word mark can be followed by

- the number 6, 7.5 or 9, indicating the flushing volume;
- the letter A and or C which indicates the type of flushing device to be connected:
 - A intended for connection with a cistern (or concealed cistern)
 - C intended for connection with a pressure flush valve.

Product(s) with a nominal flush volume of 4 and / or 5 litres are entitled to be marked with only word mark Kiwa.

Place of the mark:

- on the WC-pans between the attachment holes of the lavatory seat
- on one of the sides of the flushing rim
- under the rim of the WC-pan

Compulsory specifications:

name or mark of the manufacturer

- on the WC-pans
- additional marking or labelling as specified in the European Standard EN997.

Method of marking:

- non-erasable;
- visible after assembly.

The WC-pan is marked as follows:

"KIWA-6-A "

By this marking it is given that the WC-pan is Kiwa certified and intended for connection to a (concealed) flushing cistern. The minimum water volume required to perform a full flush amounts 6 ± 0.2 litres.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Geberit International AG
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
