Remark

The specified products were not yet assessed for compliance with all hygienic aspects as inserted in the "Drinkwaterbesluit" (Drinking Water Decree) and outlined in the "Regeling materialen en chemicaliën drink- en warm tapwatervoorziening" (Materials and chemicals in the supply of drinking water and warm tap water Regulation) dated 01-07-2017, as specified in clause 4.2 of the Kiwa guideline BRL-K652.

Sanitary Tapware; single taps and mixer taps

Application and use

Sanitary tapware: single taps and mixer taps are designed for application within the following limits of use:

- working pressure from 50 kPa up to 1000 kPa;
- water temperature of maximum 90°C.

The recommended limits for correct operation are:

- working pressure of 100 kPa up to 500 kPa;
- water temperature of maximum 65°C.

Marking

The Kiwa®-mark products are marked with the word mark "KIWA".

Place of the mark: on the body.

Compulsory specifications:

- name or mark of manufacturer, on the body;
- indication of temperature, on the handle;
- identification of the acoustic group, if classified, on the body;
- identification of the flow resistance class, on the body.

Method of marking:

- non-erasable;
- visible after assembly.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Ideal Standard Produktions-GmbH
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
