Certification process  
consists of initial and  
regular inspection of:

- quality system
- process

## Transport of drinking water chemicals

---

### TECHNICAL SPECIFICATION

#### General description of the process

The process comprises the transport of drinking water chemicals by the carrier from a production site to the treatment plant of a drinking water production company

#### Process specification

The certificate K66062 concerns the transport of chemicals in bulk and tankers

- calcium oxide
- calcium hydroxide
- calcium hydroxide suspension

#### TIPS FOR THE CUSTOMER

On delivery, inspect:

- that what is delivered corresponds with what has been agreed;
- if the activities carried out show no visible shortcomings

If, on the basis of the above, you decide to reject a consignment, please contact:

- Edgar Graß Spedition GmbH & Co. KG

and if necessary:

- Kiwa Nederland B.V.

For the correct method of storage and transport, see the manufacturer's processing guidelines.
