FITNESS FOR CONTACT WITH DRINKING WATER

This product is approved on the basis of the requirements for hygienic aspects set in the "Regeling materialen en chemicaliën drink- en warm tapwatervoorziening" ("Materials and chemicals in the supply of drinking water and warm tap water Regulation" dated 01-07-2017; published in the Government Gazette).

These hygienic aspects are based on two main criteria. The product shall permanently comply with:

- The product recipe approved during the assessment procedure. This recipe is not to be changed without prior approval by Kiwa according to the Kiwa approval procedure for the hygienic aspects;
- Specific product requirements for the hygienic aspects.

The recipe and specific product requirements are laid down in the for confidentiality reasons undisclosed 'Appendix Hygienic Aspects' to this certificate.

MARKING

The Kiwa®-mark products are marked with the word mark "KIWA" together with the Watermark logo  or the abbreviated word mark 
Place of the mark: on the shower hose.

Compulsory specifications:

- Name or mark of the manufacturer: on the shower hose;

Method of marking:

- Non-erasable;
- Visible after assembly.

APPLICATION AND USE

Shower hoses for sanitary tapware according to EN 1113 are intended for application in drinking water installations with a dynamic pressure of 50 kPa to 500 kPa and a maximum temperature of 70°C.

The recommended limits for correct operation are a dynamic pressure of 100 kPa to 300 kPa and a maximum temperature of 42°C.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Ikea of Sweden AB
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
