

ASME Boiler and Pressure Vessel Inspection Services

We provide all the necessary AIA inspection services for boiler and pressure vessels to meet ASME BPVC requirements.

Our qualified inspectors offer support on all matters relating to the ASME code

The ASME BPVC Code (Boiler and Pressure Vessel Code) is the leading internationally accepted standard for designing, manufacturing and testing of boilers and pressure vessels worldwide.

Together with our partner AIA [TÜV SÜD Industrie Service GmbH](#) we offer accredited Authorized Inspection Agency Services (AIA), which help you to meet ASME BPVC * requirements.

Requirements for Obtaining ASME Stamp

In order to obtain an ASME stamp, the product's manufacturing process, materials and inspection must conform to the ASME code and the quality manual approved by the AI. The manufacturer must also have The Certificate of Authorization issued after a certification audit.

* We offer authorized inspection services for ASME Boiler and Pressure Vessel Code Section I; III Div. 1 & 3; IV; VIII Div. 1.2 & 3; For manufacturing in accordance to X and XII and NBIC Repairs and Alterations.

Our Services

- Support for the manufacturer's certification application
- Support for establishing a QC system
- Annual monitoring of the operations and premises
- Inspection of the design and the strength calculations
