

## Materials Testing, Concrete & Building Products

Kiwa CMT Testing offers a complete service including sampling, laboratory analysis and full reporting with interpretive comment to ensure accurate identification and classification of materials, allowing selection of safe, cost effective options when considering re-use or off-site disposal. The service covers other materials including “made ground” and “fill” and we are happy to advise on requirements for particular site scenarios and situations.

**Using internationally recognised BS, BSEN, ASTM and DIN standards alongside in-house methods, you can be assured of a professional and completely independent testing and analysis service.**

**Kiwa:**  
the home of  
independent, high  
quality testing

## How can we help?

### Testing and analysis service for the evaluation of:
