

## LPG Gas Training (CoNGLP1/PD)

This Cert-ain-certified course covers the changeover from natural gas to LPG in permanent dwellings. This is a popular course for domestic gas installers who want to work above 70kW and enter the commercial gas marketplace.

### Course outcome

Successful completion of CoNGLP1/PD provides a route to the further training modules. Kiwa offers the following modules:

- RPH Residential Park homes (static caravans type accommodation)
- LAV Leisure Accommodation Vehicles (touring type caravans)
- LPGB - Boats

**Course duration: up to 3 days.**

This course is suitable for domestic and commercial gas engineers.

### Entry requirements

A current CCN1 or COCN1 qualification.

Here is a list of [qualifications and certification schemes](#) suitable for accessing ACS assessments. For further guidance on pre-requisites please contact Kiwa Training.
