

## e-learning ATEX Awareness

Do you work in an environment with an increased explosion risk and do you therefore need to know about ATEX legislation and regulations? Then the e-learning ATEX Awareness is a good starting point. The ATEX Awareness course, based on the international standard IECEx 05 module 000, can be followed entirely online and is also the perfect basis for other ATEX training courses.

### Training information

You can enregister for this training via [ATEXcertificaat.nl](https://www.atexcertificaat.nl) (in Dutch).

The e-learning ATEX Awareness of ATEXcertificaat.nl has been developed for employees who do not have to deal with the danger of explosion every day, but must be aware of the risks involved. The e-learning is concluded with a final test. Students who complete this successfully will receive the ATEX Awareness certificate.

In the e-learning the following topics are discussed:

- What is an explosion?;
- ATEX legislation and regulations;
- Flammable substances and their properties;
- Prevent explosions;
- Explosion-proof equipment;
- Responsibilities and permits.

### ATEX Awareness certificate

The e-learning is concluded with a final test. Students who complete this successfully receive the ATEX Awareness certificate directly as PDF per mail. There is therefore no need to take an exam at a different location at a later time. However, an official exam can be

## Practical information

### Practical information

Students will receive an activation code after registration with which they can immediately start the e-learning. The e-learning consists of films and animations. Each chapter is concluded with a series of practice questions, enabling course participants to acquire the necessary theoretical knowledge in a pleasant way, where and when they want to.

- Course price: 149,- euro excl. VAT per registration (including proof of participation);
- The total course takes about 2 hours;
- Months of access to the online course;
- You receive a quantity discount for multiple registrations.

ATEXcertificaat.nl is a label of Kiwa's VCANederland. ATEXcertificaat.nl works closely with consultancy firm U & D Industrial Safety BV and Kiwa Exvision for its training courses. Our courses are provided by professional teachers with practical experience.

ATEXcertificaat.nl has the quality mark of the Dutch Council for Training and Education (NRTO) for quality and professionalism.
