

## Gas products and components testing and certification

**Kiwa has extensive testing facilities for gas products based in the Netherlands, Italy, China, Turkey and the UK. Based on many years of experience in testing professional and domestic gas appliances, Kiwa offers a wide range of services for manufacturers and im-/exporters to obtain access to global markets.**

For many years Kiwa has been a notified body for European gas appliances regulation like the GAR (and its predecessor GAD) . Kiwa is also a partner of other certification Institutes and is able offer the following services for gas products:

- CE testing;
- Kiwa certification;
- International certification for:
  - GostR (Russia);
  - CSA (North America/Canada);
  - SAglobal (Australia);
  - CCGAS/CGAC (China);
  - GU05 (Hong Kong);
  - JIA (Japan);
  - SASO (Saudi Arabia).

Exporting gas products is impossible without the appropriate certification. Kiwa can help you avoid the complexity and cost of seeking compliance with a whole variety of national import requirements. Our gas safety laboratory has been recognised by the Dutch Accreditation Council as a Certification Body. This means our testing services can provide you with the required Gas Appliances certification.

If you wish to obtain access to global markets with your gas product and components, you can ask for a quotation or information either by phone or e-mail. We will set up a plan according to your requirements. After approval of the quotation by both parties the
