

Laboratory Services for Medical Devices

Kiwa offers to Organizations the opportunity to carry out electrical safety, electromagnetic compatibility and any functional test in its laboratories, with respect to the harmonized Standards.

Our experience makes us leader in the branding market of active medical devices for several applications: Diagnosis and Therapy, Surgery, Rehabilitation and Physiotherapy and Odontology.

Kiwa's laboratory supports Companies during the whole process, from the initial "Risk Analysis" phase up to the "Compliance" one, through all trials and testing needed to assess conformity with active requirements.
