## Practical information

### Management Systems Training Background & Description

For your company being able to take place in the world market and to make its name stronger in international competition depends on quality products and services. In the rapidly developing production and service sector; One of the most important criteria that ensures continuous growth and customer satisfaction on national and international grounds is the understanding of "Quality Competition". This is achieved through the "Management System" within the company. In order to ensure the continuity of the management system documentation, third party inspections should be made periodically. Training will help you to increase your qualification about management systems.

Some of our trainings:

- ISO 14001 Lead Auditor Training
