

**Do you need a quality control or validation of membranes and liners? Or perhaps certification, a maintenance inspection or an investigation of residual service life? Specific tests and consultancy in the field of membranes and liners? Our experts can help you .**

### **You are...**

If you are dealing with design, engineering or manufacturing and use of membranes and liners and you have a specific question about liners or membranes? Our experts will look into it together with you and find a solution, based on years of experience.

An outline for membranes:

- Gas holder membranes and membranes for flexible roofs, used for flexible storage and buffer of (bio)gas installations and tanks for fuels and other chemicals
- Expansion vessel membranes
- Membranes for desalination, separation and (reverse) osmosis
- Membranes in fuel cells, (semi-)permeable membranes
- Tank liners for storage of water, oil, chemicals
- Pipe liners for sewage and drinking water piping systems
- Pipe liners for oil & gas piping systems.

An outline for liners:

- Tank liners
- Sewage liners
- Pipe liners
- Barrier liners
