

Renewables Regulatory Compliance

We provide impartial, dispassionate advice on a wide range of matters in the field of renewable energy in order to support system providers, manufacturers, importers and product developers. Renewable and sustainable energies are at the forefront of everyone's mind and Kiwa can support your decarbonisation journey.

This service is for system operators, manufacturers and retailers of renewables fuels, appliances, products, controls and components.

Specific services include:

- Environmental implications of fuel and technology operation
- Project and data audit
- Combustion process advice
- Safety audits
- Regulatory compliance
- Fuel quality
- Techno economic assessments
- Technical verification of building performance
- Technical due diligence
- Hydrocarbon fuel utilisation
- Environmental consultancy
- Gases and the network - methane/hydrogen
- Emissions monitoring and field studies
