

Sealants - testing and certification

Your client demands a product that does its sealing function well during its entire service life. That is why you pay much attention and effort to the right choice for the material composition and the optimum processing properties. Of course you want the best technical support to reach these goals. Good to know that you can depend on the know-how of the experts in our Kiwa organisation.

You are...

You are a manufacturer or supplier of sealants and you want to deliver high quality products. Your client demands a product that does its sealing function well during its entire service life. That is why you pay much attention and effort to the right choice for the material composition and the optimum processing properties. Of course you want the best technical support to reach these goals. That is where you can depend on our know-how.

But, perhaps you are a purchaser or end user of sealants and you are looking for confirmation of quality and reliability in specific applications. There also you can rely on our technical expertise. In short: we are happy to help all parties involved in the development, manufacturing, application or use of sealants, such as glazing sealants - building sealants - marine sealants - road sealants.
