

FEMAS Participant Training

The FEMAS Scheme is a voluntary scheme developed, owned and implemented by the Agricultural Industries Confederation (AIC) to certify animal feed ingredients. The FEMAS 19 Standard was launched in February 2019 and has been audited to since May 2019.

Training information

Kiwa Training has developed a training programme for FEMAS participants. It encompasses the requirements of the FEMAS 19 Standard, and is aimed at those responsible for any element of FEMAS compliance. The training is delivered by an independent trainer with many years of experience in the feed industry, and specifically with the FEMAS scheme.

The training programme can be held at a training venue near you, or at your premises. We are now also offering this course online remotely so that you can train from the comfort of your home or office. If you have a larger group who would like to attend then we would be happy to organise this training privately for your site. Please get in touch with our training team if you would like to hear more.

Kiwa is independently accredited by UKAS for the FEMAS scheme.

Practical information

Kiwa Training is part of the Kiwa Agri Food Group. Kiwa Agri Food is a leading Certification Body within the Feed, Food and Farm sectors. Kiwa is the sole Certification Body that AIC have awarded the contract to deliver the FEMAS Certification Scheme

Who should attend?

This course is aimed at Technical Managers, Production Managers and site personnel who are responsible for compliance with the FEMAS Standard and general feed safety. The course would be particularly beneficial to those responsible for quality management systems. We can also accommodate for businesses who are considering FEMAS Certification.

Course content:

- Operations
- Sampling and Analysis
- Complaints
- Recalls
- Feed Safety Controls
- Traceability
- How FEMAS is audited
- The FEMAS Standard
- Introduction
- HACCP
- Raw Materials
- Trading • Suppliers of Subcontracted Service
- Sales
