Kiwa Watertec

We provide a complete testing and certification service for sanitary, plumbing products & components. This includes sanitary tapware, toilets, valves, pipe & fittings, water heaters, showers & catering equipment.

Our water products testing, approval and certification services are for manufacturers selling products into the UK, Europe and any other worldwide countries where the product standards are accepted.

The majority of the testing is carried out in our ISO/IEC 17025 UKAS accredited laboratory in South Wales-UK, though we also have additional testing facilities as part of the Kiwa group in the Netherlands, Germany and Italy.

Key testing services for water products:

Water Product Testing:

- WRAS
- Kiwa UK Regulation 4
- Consultancy
- TMV Type 2 and 3 (EN1111, EN1287, NHS Specification D08)
- G3 Building Regulations - Unvented water heating

Kiwa UK are unique in that we can offer combined water, electrical and gas testing on products including some of the below standards:

- EMC
- Electrical Safety
- CE Marking
- Catering equipment testing
- Solid fuel appliance testing
- Gas appliance testing
- RF Type Approval
- Heat pump testing
- Boiler efficiency testing
