

## Unvented Water Heater Testing and Certification (KUKG3)

For the testing of Unvented Water Heaters to BS EN 12897 (2006 and 2016) in order to meet Building Regulation G3.

The Kiwa UK Unvented water heater approval scheme (KUKG3) is for manufacturers producing water heaters requiring compliance against UK Building Regulation (G3). It is a legal requirement in the UK that products of this nature are compliant with UK Building Regulation (G3).

KUKG3 is complying with ISO/IEC 17065 product certification scheme and has the option of conformity attestation level 3 or 1+.

Pre-compliance/ consultancy testing is also offered against the above standards on production or prototype products.

The testing will be accommodated within a UKAS accredited testing laboratory No. 8896 (ISO/IEC 17025 and accredited by RVA).
