The 12th Edition Includes:

kiwa

- **A total of 43 manufacturers named as Top Performers** in one or more of the tests, including **13 first-time Top Performers**.
- **UVID has been added** as a Top Performer test category, with 19 manufacturers named.
- For the first time, **no single model type achieved Top Performer status** in all tests.
- **Some results are improving**, including **lower power loss in PID and UVID**, and **higher energy yields**.
- **Test failures hit an all-time high**, with 87% of module manufacturers having at least one failure.
