

## Kiwa NSF/ANSI/CAN 60 product certificate for drinking water treatment chemicals

**NSF/ANSI/CAN 60 based certification is intended to certify products that are aimed to be used for treatment and/ or production of water intended for human consumption. Using NSF/ANSI/CAN 60 certified products ensures these chemicals will not leach contaminants to the drinking water that can cause health effects and regulatory problems.**

### **Who is NSF/ANSI/CAN 60 certification for?**

Kiwa is accredited and recognized by the American National Standards Institute (ANSI) to provide water treatment chemical manufacturers the possibility to demonstrate full compliance with the NSF/ANSI/CAN 60 standard.

Most US states and Canadian provincial and territorial require NSF/ANSI/CAN 60 for municipal water treatment chemicals.

### **About NSF/ANSI/CAN 60 certification**

The NSF/ANSI/CAN 60 standard covers coagulation and flocculation, softening, precipitation, sequestering, pH adjustment, corrosion/scale, and disinfection and oxidation chemicals, as well as other miscellaneous treatment and water supply chemicals. Our evaluation guideline K15006 is tailored to include all relevant product evaluation, testing and production process assessment requirements which are used by Kiwa as basis for issuing and maintaining a certificate for drinking water treatment chemicals, based on NSF/ANSI/CAN 60. Kiwa is ISO/IEC 17065 accredited by the ANSI National Accreditation Board (ANAB). Our accreditation status and accredited scope is displayed [at ANSI accreditation Kiwa Nederland](#). Contact our expert for further guidance or request a quote.

### **Benefits of our NSF/ANSI/CAN 60 services**

- **Kiwa is well respected in the water industry**, a symbol of quality and integrity.

#### **Appliances & Installations Nederland**
