

Kiwa Watermark Certification and Testing for Chemicals and Water Treatment Installations

Chemicals and installations used for treatment and/ or production of drinking water can be tested and certified with the Kiwa Watermark quality mark to guarantee high quality drinking water.

Who is Kiwa Watermark certification and testing for?

Certification and testing for chemicals and installations to produce drinking water is relevant for drinking water companies and water treatment companies.

About Kiwa Watermark for chemicals and installations

Kiwa Watermark quality mark certified chemicals and installations to guarantee compliance with the requirements of Dutch and international standards for drinking water production.

The Kiwa Watermark evaluation guidelines include all requirements set by the market and government for products that come into contact with drinking water: both the private, functional requirements and the public, hygienic requirements.

Kiwa Watermark certification evaluation guidelines

Equipment for conditioning drinking water and/or hot tap water (BRL-K14022)

Kiwa Watermark certification under Kiwa evaluation guideline BRL K14022 applies to products intended to be used in drinking water and hot tap water installations with a maximum working pressure of 1 Mpa.

The products in this BRL may not be used in the context of legionella prevention as described in the Drinkwaterbesluit.

Products used for treatment production of drinking water (BRL-K15003)

Kiwa Watermark certification under Kiwa evaluation guideline BRL K15003 applies to products intended to be used for treatment and /or production of water intended for human consumption, including:

- Chemicals for corrosion and scale control.
- Chemicals for softening, coagulation, flocculation and pH adjustment.
- Disinfection and oxidation chemicals.
- All other specialty chemicals used in drinking water treatment.
- Non-chemical products such as activated carbon.

The evaluation guideline BRL K15003 is a certification scheme for the Kiwa product certificate for products used for treatment and / or production of drinking water.
