

Quality Marks

As well as safety markings (such as CE or UL approvals), Kiwa can offer several Quality Marks; offering you an extra way to differentiate your products from the others. Some of the quality marks also offer an interesting (tax or refund) benefit for your customers as an extra sales argument for your products.

Would you like to request a tender? Do you have a question? Would you like information about a specific topic? Or do you have a comment? Please let us know. We will respond to you as soon as possible.
