

Rubber seals for water pipelines

Do you want to increase the market potential of your rubber seals? In that case it is important that you obtain product certificates that are accepted in the countries of use to become access to global markets.

You are...

Are you a rubber seal manufacturer and you want to be able to supply worldwide but you don't have a product qualification yet? We can help you to obtain product certificates that are accepted in the countries of use worldwide as authorities, pipe system suppliers and other parties in the chain of custody are demanding proof of quality of rubber seals by third party testing, inspecting and certification.

Important product standards for rubber seals

Kiwa product certificates according to Kiwa evaluation guidelines and EN, ISO, AS and ASTM standards provide compliance to product requirements on a global scale. Our specialists are well-known in the world of rubber seals and are active in the standard committees of EN and ISO. They can help you with their knowledge of standards worldwide in Europe, Asia, Africa, USA, Australia.
