

Make sure that quality demands are being met with expert NDT inspection for the aerospace industry. Our staff are certified NDT technicians for aircraft and aircraft components. Most of them are trained aircraft engineers.

Force Kiwa Aerospace Testing

We have more than 30 years of experience from NDT inspection within the aerospace industry.

Our staff are certified NDT technicians for aircraft and aircraft components. Most of them are trained aircraft engineers.

Locations

- We are located in Sweden (Arlanda - ARN), Denmark (Copenhagen - CPH) and Norway (Oslo - OSL)
- We serve Northern Europe and with daily flight connections to the rest of the world
- We are able to respond globally in case of AOG (Aircraft on ground) or scheduled maintenance

Certificates and approvals

- EASA Part-145 approved no. SE,145.0007
- Air Agency Certificate (FAA)
- Cessna NDT Facility certificate no. C-145
- Bell Helicopter
- Boeing 787 Dreamliner

We offer a broad variety of NDT services:

- Thermography testing (TT)
- Ultrasonic testing (UT)
- Eddy Current testing (ET)
- X-Ray - Radiography testing (RT)
- Magnetic particle testing (MT)
- Penetrant testing (PT)
- Leak testing (LT)
- Replica Testing
