

Certification according to the IFS standard is relevant for all production facilities and companies that produce, process and trade with food. The IFS standard offers Europe-wide recognition, product protection, a controlled supply chain and food safety.

The individual areas of the IFS standard (IFS Food, IFS Logistics, IFS Broker, IFS Cash & Carry) are globally recognised standards for auditing in the food industry.

Food safety and the legality of products are guaranteed by detailed on-site audits. Kiwa Food, Feed & Agriculture has a wide range of certification bodies in this area, which offers all solutions from a single source in accordance with the quality guidelines.

Being certified with Kiwa

The Kiwa Group is certified for auditing the following standards: IFS Food, IFS Logistics, IFS Broker and IFS Cash & Carry. Kiwa also offers the possibility to have other audit services besides the IFS standards (e.g. BRC, FSSC 22000, ISO 22000, organic certification, MSC, ASC, GMP, QS) carried out by local and international auditors. IFS certification in Germany is conducted by local auditors of Kiwa International Cert GmbH.
